

Weapon-Clear

Safety Beyond 50 BMG Api

After gaining positive responses from and indeed popularity among various police, military, and other law enforcement units from all over the world, MilPolice Equipment took another leap forward and introduced new weapon-clearing devices that were designed to provide further safety to firearm users. In addition, the Weapon-clear range now includes a safe-transport system that allows the preservation of forensic evidences.

Air-Clear:

MilPolice Equipment, the manufacturers of Weapon-Clear range, has launched their latest innovation - the Air-Clear. The unit is primarily designed for sky marshals and close protection officers giving them an ultra compact, convenient and safe method of loading and unloading their firearms.

The Air-Clear is designed to be replaced or returned to ourselves after a discharge as due to its compact dimensions, it has been designed to safely capture a single shot. The exact specifications will be provided upon request from qualified officers.

The unit is finished in stainless steel making it long lasting and durable.

A larger 2.362 in X 3.149 in model which will accommodate a handgun with torch fitted will soon be available – please email for details.

Dimensions:

- Height = 1.574 inches
- Width = 1.574 inches
- Depth = 4.921 inches
- Weight = 0.992 pounds

Test Data:

Due to the product's nature of use and the classified ammunition used – please email from a government email address and we will provide full test data.

IMPORTANT!

- Please note due to the compact size of the unit, we recommend that each officer be given proper training in its use prior to issuance.
- The unit should be placed on a hard surface – preferably a solid floor prior to commencing the loading or unloading procedure.

Vehicle-Clear:

From the manufacturer of the Weapon-Clear range comes another innovative weapon clearing solution - the Vehicle-Clear.

The Vehicle-Clear model provides a compact lightweight solution for personal officer use, both in-vehicle and indeed in an officer's domestic, providing a compact solution to weapon clearance while giving a high level of user safety over the complete range of pistol calibers and standard rifle calibers (up to 7.62/.308).

Advantages:

- 7.62 NATO inc steel cored rounds and all handgun rounds
- Does not need to be replaced after a negligent discharge
- Safe for 50 rounds prior to replacement
- 10 years prior to replacement (equivalent to 3+ discharge bags lives)
- Weight 10.802 lbs - no weight premium over a discharge bag
- No splashback nor fragmentation

Transit-Clear:

MilPolice Equipment has again proven its commitment towards safe weapon clearance as it introduces another Weapon-Clear model - the Transit-Clear.

The unit has been developed to allow the safe transportation of all pistol and rifles irrespective of their loaded status, thus allowing the retention of forensic evidence.

Test Data:

This model has been independently tested to safely contain all pistol and carbine rounds including rifle rounds (to 7.62/.308)

Wiltshire Ballistic Services:

28 Rounds in Total

Ammunition Calibre	Quantity	Held	Witness Paper
9mm	5	Yes	No Penetration
.38 Spl	5	Yes	No Penetration
.357 Magnum	5	Yes	No Penetration
.44 Magnum Remington	5	Yes	No Penetration
5.56 * 45 NATO	4	Yes	No Penetration
7.62 * 39 Soviet Ball	2	Yes	No Penetration
7.62 * 51 L2A2 Ball	2	Yes	No Penetration

Dimensions:

- Height = 8.267 inches
- Width = 4.724 inches
- Depth = 7.874 inches
- Weight = 10.802 pounds

Watch out for the upcoming launch of the latest innovation in weapon-clearing devices - the FORENSIC-CLEAR - from the makers of the world-renowned Weapon-Clear range!
